

Brisbane's best Motown act

"The 8-Tracks set the stage on musical fire... they sound incredible, are classy, and have a powerful energy that commands attention."

- Peter Koevari, Festival Director
AFIN International Film Festival

The 8-Tracks have been steadily taking over as Brisbane's premier Motown band, as more and more venues and gigs sell out and waitlists grow to see them perform live.

Founded in 2016, the band has gone through several variations to become what it is now - a fine-tuned 8-piece delivering infectious musical sets of not only Motown, but also funk, soul, jazz, disco and pop.

A unique all-female 3-piece leads The 8-Tracks. Their combined professional performing experience ensures a full melodic sound of gorgeous harmonies and commanding lead vocals, all while dressed in a style that evokes the musical era.

They're supported by a talented uniformed backline including horns, keys, bass, drums and guitar, that together creates a sound that has audiences lining up down the street with their dancing shoes on.

And that is quite literally a fact - at The 8-Tracks first appearance at the Brisbane Jazz Club, eager audience members lined up down the street, hoping to gain the last standing-room-only tickets in what was the club's highest-selling mid-week show in its history.

Playing all your favourite songs from artists like Aretha Franklin, The Temptations, Stevie Wonder, The Supremes, The Jackson 5 and countless more, The 8-Tracks should be top of your list for live music in Brisbane. Remember their name!
